Transformational Leadership: Enhance Organizational Effectiveness Through Agile, Adaptive and Resilient Leadership

Leadership expert, James McGregor Burns, defined transformational leadership as a process where "leaders and their followers raise one another to higher levels of morality and motivation."

Achieve extraordinary results by applying transformational leadership principles through our high impact programme. This programme provides an opportunity for leaders to learn how to create an environment that enables and inspires teams to deliver exceptional performance.

Objectives

- Apply the principles of transformational leadership
- Capacity to lead effectively with your own style
- Developing a high performing team that produces extraordinary results
- How the way you manage change and complexity impacts on others
- Define your pathway to becoming a transformational leader

Who is this Programme for?

- CEOs, C-suite executives and senior managers seeking to transform their organizations
- Heads of departments and unit leaders
- Middle managers and team leaders

Abridged Agenda

- Exploring transformational leadership
- Inspiring change through transformational leadership
- Developing organizational and Leadership Agility
- Coaching as a Leadership Effectiveness Tool
- Building motivated high-performing teams
- Creating a transformational culture
- Transformational leadership self-assessment
