

Leadership Excellence Programmes – 2024

SME Business Foresights Strategy workshop

Small-Medium Enterprises (SMEs) are becoming increasingly important in terms of job and wealth creation as well as the development of innovation. However, there are considerable concerns about the quality of strategic planning and management in this very crucial economic development sector.

Learn to develop long-term perspectives and scenarios as part of your strategic planning process by attending our practical and interactive workshop. This workshop provides an opportunity for SME business leaders and strategists to learn more about the foresights approach to strategic planning and how to embed it in their planning process.

Objectives

- Understand the concept of foresights planning
- Appreciate the developmental stage of your business
- Develop future business scenarios
- Apply the foresights approach to strategic planning
- Develop a strategic plan that prepares your organization for the future

Who is this Programme for?

- CEOs and Managing Directors of small-medium enterprises (SMEs)
- Executive Directors and Senior Managers of small-medium corporates
- Entrepreneurs and Start-up Managers
