

# Opportunities and Challenges in ESG Implementation

 **24th – 25th  
April, 2025**

 **2 full days in Naivasha**

 **KShs 70, 000  
(inclusive of taxes)**

## Best Practices in Achieving Corporate Sustainability Results

This 2-day workshop is designed to help professionals learn effective ways to promote and measure sustainability in their organizations. Through expert interaction, case studies, discussions, and activities, participants will gain a deeper understanding of sustainability and how it can benefit their organizations, stakeholders, and the wider community.

The program is ideal for professionals who want to enhance their skills, get practical tools and learn techniques to implement sustainability practices in their organizations.
